

[Sui RPC](#)[GraphQL \(Beta\)](#)[Types](#)[Inputs](#)[MovePackageVersionFilter](#)

MovePackageVersionFilter

Filter for paginating versions of a given `MovePackage`.

```
input MovePackageVersionFilter {  
  afterVersion: UInt53  
  beforeVersion: UInt53  
}
```

Fields

`MovePackageVersionFilter.afterVersion` • `UInt53` **scalar**

Fetch versions of this package that are strictly newer than this version. Omitting this fetches versions since the original version.

`MovePackageVersionFilter.beforeVersion` • `UInt53` **scalar**

Fetch versions of this package that are strictly older than this version. Omitting this fetches versions up to the latest version (inclusive).

Member Of

`packageVersions` **query**
