

SharedObjectCancelled

The transaction accepted a shared object as input, but its execution was cancelled.

```
type SharedObjectCancelled {  
  address: SuiAddress!  
  version: UInt53!  
}
```

Fields

[SharedObjectCancelled.address](#) • [SuiAddress!](#) **non-null**

scalar

ID of the shared object.

[SharedObjectCancelled.version](#) • [UInt53!](#) **non-null** **scalar**

The assigned shared object version. It is a special version indicating transaction cancellation reason.

Implemented By

[UnchangedSharedObject](#) **union**
