

TypeOrigin

Information about which previous versions of a package introduced its types.

```
type TypeOrigin {  
  module: String!  
  struct: String!  
  definingId: SuiAddress!  
}
```

Fields

[TypeOrigin.module](#) • [String!](#) **non-null** **scalar**

Module defining the type.

[TypeOrigin.struct](#) • [String!](#) **non-null** **scalar**

Name of the struct.

[TypeOrigin.definingId](#) • [SuiAddress!](#) **non-null** **scalar**

The storage ID of the package that first defined this type.

Member Of

[MovePackage](#) **object**
